

Kenya Maize Development Programme

FIPS-Africa co-operates with ACDI/VOCA, Cereal Growers Association (CGA) and the Kenya Agricultural Commodity Exchange (KACE) in the Kenya Maize Development Programme (KMDP), funded by USAID. The objective of KMDP is to increase incomes of smallholder maize farmers in rural areas.

FIPS-Africa's role within KMDP is to empower farmers to increase their maize production whilst reducing costs of production.

KMDP currently operates in the following districts: Bomet, Bungoma, Buret, Kisii, Lugari, Nakuru, Nyamira, Trans-Nzoia, and Uasin Gishu.
