

## Flora East Africa - HB-101

*HB-101 on avocados in Embu district*

Flora EA is the distributor of HB-101 in Kenya. HB-101 is a natural plant extract from cedar, cypress, pine and plantain. HB-101 is a natural plant extract that increases plants' resistance to stress, including pests and diseases. Farmers throughout the country are trying out HB-101, and finding that it increases yields on many crops including coffee, avocados and vegetables.

To date, Flora EA has given FIPS-Africa 200 x 6 ml vials of product. Each vial can be diluted in 100 litres of water to treat 0.25 acres of crops.
